

METHOD OF PLAYING A THREE PART WAGERING GAME

ABSTRACT OF THE DISCLOSURE

5 A method of playing a wagering game is described. The method requires the player to place three wagers to participate in a three segment game. A first card is dealt to the dealer and each player. The high card wins the first bet. If the player and dealer tie, one-half of the player's bet is returned to the player. Additional cards are dealt
10 according to the rules of blackjack, except a maximum of six cards are dealt in any hand. Aces may be split, and doubling down is allowed. The second bet is resolved according to the rules of blackjack, with ties pushing. Additional cards are dealt, if necessary to form a six card hand. Hands are resolved according to standard poker rankings, and payouts are made according to a predetermined schedule, or pay table payout.
